This brochure is a summary of the benefits available. For complete information including details of benefits, coverage, specific exclusions, conditions, and limitations please refer to the complete terms and conditions of the limited warranty.

BATTERY4LIFE
LIMITED WARRANTY

DID YOU KNOW?

A leading cause of automotive breakdowns is a dead or malfunctioning battery. This can be a frustrating situation, particularly when you are driving. The battery in a vehicle plays a crucial role as it supplies energy to start the engine and powers all the electrical systems within the car.

Replacing a dead or failing battery can be a nuisance, especially if you're on the road and your vehicle won't start. In addition to the cost of the battery itself, you may also need to pay for labor and any additional parts required for installation. The Battery 4Life Limited Warranty administered by Smart AutoCare is designed to address these concerns and provide peace of mind.

► COVERAGE & BENEFITS*

- Coverage expires if you no longer own the vehicle or if your battery has been replaced under the limited warranty.
- \$25.00 Deductible
- Jump-Start Roadside Assistance

► AVERAGE COST OF BATTERY

The price of a new vehicle battery is influenced by a variety of factors, including the make and model of the car, and the type of battery required. Typically, you can expect to spend anywhere from \$60 to \$300 for a new battery, with the cost potentially being higher for luxury vehicles. It's important to keep in mind that there may also be installation fees charged by the repair facility replacing the battery.
