

EASY TO MISPLACE. COSTLY TO REPLACE.

You know that moment, right? The one where your hands are full and you're on your way to accomplish the next item on your To-Do list. But then you realize, your car key is missing or inoperable.

Car keys are just as easy to misplace today as they ever were, but more costly to replace than ever before. While advanced key technology has made your vehicle much tougher to steal, it has also increased the cost of key and remote replacement.

Smart AutoCare™ Key Replacement Protection offers several coverage terms to help you keep "pay for expensive key replacement" off your To-Do list.

▶ COVERAGE

- Wide range of term options
- Coverage for both your key and remote
- Cancelable and Transferable
